Mr. Gerard Caron served our nation in the Vietnam War. A story from his sister, Mary Little: "Vietnam scarred my brother for life; the tragic events he experienced and saw while there came home with him in his mind and heart giving him nightmares that didn't seem to go away. He survived Vietnam, fortunately for all of us who loved him, but then was killed in an accident on black ice on April 10, 1996 at the young age of 49, heading up the mountain to work at Site R. The driver of the vehicle, Stephen Beeler, was also killed in this accident (such a kind friend to drive my brother to work every day). I relive that 5:00 a.m. knock on my door from the township police, Kurt Braun, giving me this horrific news. Officer Braun was smart enough to come to my door with this sad news and not my mother's, where Gerard lived, or I might have been burying two family members. Her first words when I went to tell her the news were, "This isn't the order of life, your children are not to go before you." A computer lab was later dedicated to Mr. Caron in memory at Saint Andrew's.

His book was published and is available on Amazon or in bookstores. Growing up he was known as Robert (Rob) but the military of

course called him David. Along the way, he acquired the nickname "Buff" but whatever name you knew him by, he was a great guy and left the world a better place for being here. *(Continued on next page)*
